

Are you familiar with power transmission and distribution and do you have experience with CAE tools in this context? Then you are exactly the right person to strengthen our product management team at the AUCOTEC headquarters on the outskirts of Hanover, Germany, **preferably with immediate effect** as a

Product Owner – Plant (m/f/d)

AUCOTEC AG, founded in 1985, is a global developer of software for the planning of plants, machines and mobile systems. With its unique Engineering Base platform, which solves current challenges in a data-centered, integrative and object-oriented way, AUCOTEC has grown considerably, especially in the areas of process plant engineering and PTD.

Your area of responsibility:

The position offers both the opportunity to engage in exciting technical discussions with professionals from a variety of companies around the world and to participate in conferences and exhibitions.

As a Product Owner, you will hold discussions on specific topics with our customers, internal consultants, as well as the product management team, and formulate a technical challenge that requires solving. Together with a team made up of product management and software development, you will drive the design and development of a solution for the described challenge with commitment. This includes performing the iterations of validation and verification until the final acceptance of the solution in the market and by AUCOTEC customers.

Your qualifications:

- At least 2 years of experience with CAE tools, especially related to PTD (Power Transmission and Distribution).
- Knowledge of power distribution, secondary or protection and control technology
- Experience with Engineering Base is a plus
- Good written and spoken German and English skills
- Team-oriented, communicative and responsible method of working
- Goal-oriented, systematic approach and analytical thinking skills

We do not expect you to already be perfectly familiar with all topics and to always find a solution immediately. But we expect you to be committed and able to familiarize yourself independently with unfamiliar areas of responsibility and to participate in training courses because the job motivates you and you want to take on exciting challenges.

What you can expect:

- A highly committed, experienced team that enjoys support and is very open to new ideas and creative approaches to solutions. The Product Management department at AUCOTEC is responsible for the strategic planning and design of a portfolio of CAE tools and platforms for engineering solutions. The main product is Engineering Base including all applications. The Product Owner position is in the plant segment with approximately 11,400 active licenses worldwide.
- Employee benefits ranging from free drinks to Hansefit special conditions and JobRad bike through to a discounted Deutschlandticket for public transport
- Flat hierarchies, various development opportunities, flexibility, working from home and lots of great colleagues.

How to apply?

Please email your application to: jobs@aucotec.com. If you have any questions, please do not hesitate to contact Ms Beatrix Tillmann, Executive Assistant, by phone at +49 (0)511 6103-0.
